

# Dreams of Zion

## Review and Comparison

Dreams By “Thomas”, starting at age 14

Shared in 2015, Returns from LDS Mission in 2017

See full text of PDF file “Dreams of Zion” at NFP

Thomas: *There are 3 years of tribulation in America and pre-tribulation signs leading up to the first year.*

- **Pre-tribulation:** A financial disruption, and a civil war is over (3 months), a 1-2 year period of rebuilding begins, then sudden destruction comes.
- **Year 1:** *Year of Plagues* - Natural calamities begin this year (begin Jan-Mar). Comet hits the earth and two plagues have been released. The month of March (into the next calendar year) is the CO.
- **Year 2:** *Year of Internal Destruction* - The third plague will be released while in camp, mob rule, more calamities, federal government dissolves.
- **Year 3:** *Year of External Destruction* - Russia and China invades. Cities of light called to go to MO. Lost 10 Tribes start to arrive.

# Pre-Tribulation Signs

- The apostasy in the church is increasing. It will reach nearly 50% in a short amount of time. The indicators are: opposition to gay issues, and anti-Mormon materials rapidly disseminated (conspiracy theories the brethren cannot satisfy).
- The hastening of the work continues. Missionaries will not be called home until the first year of the tribulations.
- In the month of August, (no year given) a civil war will break out over the union contracts not being honored in Chicago. It will spread over the whole US. Up to 20 million will be killed over 5 months. It ends when TX drops a nuke into Detroit to stop it all. The democratic party will no longer exist. No one will admit to being a member of that party after the war. GOP will still exist. Independent American Party will arise (they will be extremely conservative).
- The dollar will be devalued. The U.S. will return to the gold standard. After the Civil War the schools will be privatized to save money to rebuild the economy. The intermountain area will flourish as they managed to stay out of the civil war.

# 1<sup>st</sup> Twelve Months of Tribulation

- The missionaries are called home, and a 3 month period of destruction (Jan-Mar) all over the US ushers in the beginning of the plague era. NY, Boston, Dallas, Washington State, CA , and Seattle all face extreme calamity. Utah is still relatively safe. This is the start of FEMA camps, later to be run by charities.
- The first of three plagues is released when a comet hits the earth. It is identified by having blue skin with white spots. It will start on the east coast and will be recognized when it hits Indiana. It will travel northerly to the west coast, down the coast line to the southerly south. There will be 30 million who die.
- There will be a 3 month break and plague #2 will break out. It will be a plague of fear. People will randomly develop diseases and if you have faith, you will live through it. Approx. 50 million will die. There will be a great silence for about 3 months.
- Society will rapidly decay. It will be an era of extreme mistrust.
- The last month of this year (March) will be the CO, and the start of plague #3 looming.

# 2<sup>nd</sup> Twelve Months: Year of Destruction Within

- The president has been killed in his bunker along with others and some in Congress.
- Within weeks of a CO, all cities fall, except SLC.
- Federal government is dissolved. Movement becomes limited as the plague closes state borders. The third plague is released. 17 Million die.
- Locusts consume the Midwest.
- Mobs rule.

# 3<sup>rd</sup> Twelve Months: External Destruction

- The country is being torn apart by violence and mobs. Russia and China decide to invade. They nuke Washington, DC and LA first (to stop mob violence) and it helps stop marauders from reaching the tent cities. The 10 Tribes ultimately stop the gangs.
- The Russians are more wicked than the Chinese. The mobs are more violent than both of them. The casualties are huge. The south has nearly starved, Florida is lined with bodies. There is an EMP, but the electricity has been off for awhile anyhow.
- The tent cities are consolidated to make cities of light. The 10 Tribes start arriving.
- Australia is almost destroyed by Chinese. British try to stand with US but take heavy casualties. The 10 Tribes wipe out Chinese in Washington state and head for Utah. Chinese and Russia began to head home due to internal problems. Some are converted to the gospel and take it back to China.
- At the end of this year there are approx. 12 million Saints left, 10 million of the 10 Tribes for a total of 21 million in America. Food is planted for the hordes who are making their way to Zion.
- He saw the U.S. being void the wicked. This was the end of his timeline.

# Comparisons and Comments

- The events are the same and in the same order, however, the timing between the events has become more clearer and the timing is a few years longer than anticipated. *I believe his timeline along with Visions of Glory is the most accurate to date.* As many have been anticipating these end-times events for several years now, this will give many more time to prepare temporally and spiritually.
- I am extremely grateful for this vision to come forward at this time, even though it has been around for awhile without my knowledge, I believe I was not to see it until I did my part with years of research...it confirmed all the research I had been accumulating over the years.
- It fills in the holes that explain my current declarations and I can continue to make the changes necessary to my never ending event-line research.
- I have always believed, “No Man Knoweth the Day nor Hour” is an ancient Jewish idiom full of symbolism for those with ears to hear when quoted by the Savior in Matt 24. It was a phrase used when the people looked for the elders to alert them of Jewish holidays and days and weeks in place of calendars. The Jewish Elders would tell the people the day and month based on the cycle of the moon. “No man Knoweth the day nor hour until the Jewish elders told them.” We have been told we can know the season we are in and to watch and be ready. We will be told by our Elders when we are in the season, and that is exactly how it is playing out now. Never before in history have the brethren made so many passing comments regarding the preparations for the return of our Savior.

# Comparison

## My event line:

Financial Hardships > Civil War> Missionaries Called Home > **CO** > Plague > Collapse > UT EQ > Invasion > Build New Jerusalem > Drive out troops.

## Thomas' event line added to mine:

Financial Changes > Civil War > **Period of Peace** > Missionaries Called Home > **Extreme Calamities Nationwide** > Plagues **1-2** > **Comet** > **CO** > Plague **#3** > Government Dissolved > UT EQ > Invasion > New Jerusalem> Drive out troops.

# Comments (My Opinions)

- The pre-tribulation is now and will take about 2 more years to complete. It may already feel like great tribulations, but the scriptures describe the tribulation period as events that destroy the wicked.
- The 3 years of tribulation seem to precede Armageddon by two years. We need to have a CO to get New Jerusalem started so we can send 2 Prophets to Israel to hold off the world's army for 3.5 years. In the John Taylor vision, he sees a plague devastate the east coast, but also sees 12 men dressed in robes.

*“A short distance from the MO river however, I saw twelve men dressed in temple robes, standing in a square or nearly so (and I understood it represented the Twelve Gates of the New Jerusalem.) Their hands were uplifted in consecration of the ground and laying the corner stone of the temple. I saw myriads of angels hovering over them, and saw also an immense pillar of clouds over them and heard the angels singing the most heavenly music.”*

- *It all seems so surreal, and yet so close now.*

# My comments in red: Pre-trib events.

- The apostasy in the church is increasing. It will reach nearly 50% in a short amount of time. The indicators are: opposition to gay issues, and anti-Mormon materials rapidly disseminated (conspiracy theories the brethren cannot satisfy). **This is happening now. We can only hope that the Cardston Prophecy about “those who left the fold will return during the tribulations” is true.**
- The hastening of the work continues. Missionaries will not be called home until the first year of destruction.
- In the month of August, (no year given) a civil war will break out over the union contracts not being honored in Chicago. It will spread over the whole US. Up to 20 million will be killed over 5 months. It ends when TX drops a nuke into Detroit to stop it all. The democratic party will no longer exist. No one will admit to being a member of that party after the war. GOP will be the establishment. Independent American Party will arise (they will be extremely conservative). **The state of Illinois is seeking bankruptcy protections now for it's 12 Billion dollar deficit that it cannot pay the pensions or honor the contracts with the unions. This conflict will most certainly be in full swing by the next August (2018).**
- The dollar will be devalued. The U.S. will return to the gold standard. After the Civil War the schools will be privatized to save money to rebuild the economy. The intermountain area will flourish as they managed to stay out of the civil war. Tech companies will consolidate there. **Adobe, Amazon, EBay, have recently come here. The gold standard is a long term solution to eliminating our country's debt crisis. Privatizing schools will also give control back to the parents.**

# My comments in red: 1<sup>st</sup> Twelve Months of Tribulations

- The missionaries are called home, and a 3 month period of destruction all over the US ushers in the beginning of the plague era. NY, Boston, Dallas, Washington State, CA , and Seattle all face extreme calamity. Utah is still relatively safe. **This is supported by the scriptures that when the gospel is no longer taken to the Gentiles, the destruction will begin. See also: (1Thess 5:3) that sudden destruction comes after peace and safety.**
- The first of three plagues is released when a comet hits the earth. It is identified by having blue skin with white spots. It will start on the east coast and will be recognized when it hits Indiana. It will travel northerly to the west coast, down the coast line to the southerly south. There will be 30 million who die. **Revelations supports the comet hitting the earth and being one of the first events. I did not realize a plague would accompany the comet. However, the scriptures say the water becomes tainted (Wormwood) and many die.**
- There will be a 3 month break and plague #2 will break out. It will be a plague of fear. People will randomly develop diseases, if you have faith you will live through it. Approx. 50 million will die. There will be a great silence for about 3 months. **Suzanne Freeman's book, The Window of Life describes the plague of fear.**
- Society will rapidly decay. It will be an era of extreme mistrust. **This almost describes now. I can't imagine things getting worse.**
- Knowing the president has been taken out will cause immediate collapse of what is left, in the last month of this period (March) there will be the CO, and the start of plague #3 looming. **The Dream of Plagues described the saints in camp while a plague was being released. I just didn't realize it would be the 3<sup>rd</sup> plague! Multiple sources talked of 3 plagues, but we will need to be prepared to endure the first two until a CO.**

## My comments in red: 2<sup>nd</sup> Twelve Months of Destruction From Within

- The president has been killed in his bunker along with others and some in Congress. Multiple sources (visions and Apocrypha) describe this event of a president being taken out.
- Within weeks of a CO, all cities fall, except SLC. This is supported by other visions. It is also why the members can slip away unnoticed.
- Federal government is dissolved. Movement becomes limited as the plague closes state borders. The third plague is released. 17 Million die. Another good reason we go undetected. This is supported by the Dream of Plagues that the Saints are in their tents during the times the plague is being released.
- Locusts consume the Midwest. This will accelerate the famine.
- Mobs rule.

## My comments in red: 3<sup>rd</sup> Twelve Months of External Destruction

- The country is being torn apart by violence and mobs. Russia and China decide to invade. They nuke Washington, DC and LA first (to stop mob violence) and it helps stop marauders from reaching the tent cities. **Since VOG describes these troops reaching SLC after an EQ, I am going to assume this is where the UT EQ fits in.**
- The Russians are more wicked than the Chinese. The mobs are more violent than both of them. The casualties are huge. The south has nearly starved, Florida is lined with bodies. There is an EMP, but the electricity has been off for awhile anyhow. **This is the period of the Remnant of Jacob who will tear through the land like a lion. This is the final stages of the wicked being destroyed, cleansing the land for New Jerusalem.**
- The tent cities are consolidated to make cities of light. The 10 Tribes are starting to arrive.
- Australia is almost destroyed by the Chinese. British try to stand with US but take heavy casualties. The 10 Tribes wipe out the Chinese in Washington state and head for Utah. China and Russia began to head home due to internal problems. Some are converted to the gospel and take it back to China.
- At the end of this year there are approx. 12 million Saints left, 10 million of the 10 Tribes for a total of 21 million in America. Food is planted for the hordes who are making their way to Zion. **Reminder, Zion is 1200 square miles, including the New Jerusalem city with 12 temples.**
- Thomas has seen missionaries go back out, the world is devoid of the wicked now, and Adam-on-di-ahman has occurred. That was the end of his timeline. **Note: In VOG, a year after the UT EQ, at the conference, JS makes the statement that AOA occurred a few months earlier. AOA needs to happen to get New Jerusalem built so we can send 2 prophets over to Armageddon for 3.5 years. At the end of Armageddon, there is a short season of the Jews being taught and the temple endowment given and then the Savior will return for the Second Coming and Resurrection. The year before he returns, there will be no rainbows.**

Thank You Thomas!
