

EXCERPTS ON THE EARTHQUAKES FROM
VISIONS

VOG

My flight across North America began in Salt Lake City. There had been a massive earthquake in that area in the fall of the year. I tried to determine which year it was even while I was in the vision, but I could not.

///

I saw that the next spring after the destruction in Utah, there was another devastating series of earthquakes that occurred along the west coast of North and South America. The western coast of California, Mexico and all the way to the tip of South America was shaken so badly that much of it broke away from the mainland and formed a series of islands off of the coast. Sea water rushed in to fill in the canyons between land and island. Major cities were shaken to the ground, with inland areas suffering less damage. The same quake extended up the coast of Canada, and continued all the way to Alaska. I didn't see the effects of the earthquakes north of the continental United States, but I assume the destruction was undiminished.

About two months later another earthquake opened up a narrow canyon approximately where the Mississippi river is now, though it deviated eastward where the Mississippi presently merges

The UT earthquake is in the fall.

About 6 months later the coastlines get an earthquake. California this is your warning.

This is the Madrid Fault Line. Dozens of people dream this quake. It splits American in two. This Pastor sees it is because we betray Israel.

with the Ohio River. It followed the Ohio into the great Lakes. The Ohio River and the remainder of the Mississippi river rerouted itself into this canyon. It created a huge new lake and river system approximately where the Mississippi River is now. This canyon essentially created an Eastern and Western United States, which figured into some international intrigue I will mention later on.

I then “flew” across the upper part of Florida, and up the east coast of the U.S. The earthquakes had not reached here as strongly, so the infrastructure was more intact. But, there had been a biological attack, and there was more death in the eastern and north-eastern parts of the country than in those areas stricken by the earthquakes.

////

Of the total population before the earthquake, I estimated that 25% died in the plague. I knew as I was “flying” over it that the plague had been man-made, and the troops were inoculated against it, but it took many months before the survivors of the plague realized the true source of it.

///

I was left with the impression that between the earthquake and the plague, that more than half of the population had been killed – more on the coastlines and fewer inland.

The scene became more and more horrendous as I watched time pass. In Utah, and other places where people had hearkened to the warnings to store food and prepare spiritually, there was hope. In other places, people lost hope. Some people intentionally contaminated themselves with the plague after watching loved ones die. From contamination to death was about twelve hours.

///

Initially, America had been hardest hit by all of this, but when the destructions hit those who had released the plague and launched the nuclear weapons, it was far more destructive. Their entire governments, financial institutions and economy collapsed. They experienced great earthquakes and continental movement, rioting and war far more devastating than in America. People were trying to leave those continents in droves. As I will explain more fully later, angels and translated beings ministered to the worthy and faithful and safely brought them to Zion.

////

I was aware that there were **other gathering places** like this throughout the United States, Europe, South America, and anywhere the stakes of Zion had been fully organized prior to the earthquakes.

The gathering places were before the earthquake.

The Church had a world-wide communication system in place, and they led us with inspired counsel and kept us informed of world events.

////

I never saw a full column of U.S soldiers or National Guard. I found out later that atomic weapons had been deployed to take out major defense installations around the nation and in

Utah. There had been a first strike against the United States, and came without provocation.

About this time the same plague which had devastated so much of the east coast arrived in Utah

as it spread across the nation. The foreign troops had brought hazmat equipment, as if they were

expecting the plague, and very few of them got sick. As I said, we found out later that the plague

was man-made, and the troops had been inoculated against the pathogen that caused the plague.

D&V II

I was praying to Our Father and asking him if I could prepare more things before the time begins. I received an immediate whispering. This is what was said as best I can remember. Please pray before you read this so you know it is from above.

"You will go early to avoid calamities, earthquakes, floods and all will happen while in the camp. Your life will be very different. Now you must prepare. I can wait no longer. Food, medicine, ax, saw, nails, winter clothes, baby things, heat, books, birth certificates. Fire starting will be hard. Attacks will not come here."

///

The scene seems to gain some control when, after a little time passed (not sure how long), a second earthquake hit that was worse than the first. Again, more time passed and a third earthquake hit. I thought that not a single

Foreign troops come to help (UN troops) and they are friendly. It is a few weeks later that the Chinese and Russian troops invade to conquer.

Nuclear weapons have been used to disable Americans from fighting back.

building could stand the terrible shaking of the earth. However, looking over the two *valleys* there were still many buildings standing. Even those that still stood had some degree of damage.

///

While I was leaving a class, a young man my age approached me. I seemed to know him, for I was not surprised that he talked to me, though I do not now know who he was. He told me in a hushed voice the "the destruction" would come that following **Saturday**, two days time. After he gave his short message, he left.

///

Enemy combatants will come to Salt Lake City fairly **soon after the exodus**. Salt Lake will be one of the first cities to be heavily occupied by organized troops, perhaps because it is the seat of government for the church. The troops will, in fact, play a role in wiping out the street toughs that populate the city shortly after exodus time. Anyone foolish enough to engage the military patrols by force will be simply destroyed as so much inconsequential rabble.

///

The Time is Now

We will feel an urgency as we make our way to the camps, and in some parts of the country it will be for good reasons . I was shown that as we settle in, we are going to get news that nothing really big has happened yet. We will have ways of communicating with the outside world, **and we'll be waiting to hear of a major earthquake, or that foreign troops have invaded the coasts.** It will seem as if we have been fooled somehow into gathering. Many will ask themselves, "What am I doing here?"

///

As I mentioned earlier, the earthquakes had closed off many of the major canyons with rockslides. The roads were buried or severely damaged, helping protect the Places of Refuge from the foreign troops and other marauders.

///

Rev 16:17-21... "And the seventh angel poured out his vial into the air; and there came a great voice out of the temple of heaven, from the throne, saying, It is done. "And there were voices, and thunders, and lightnings: and there was a great earthquake, such as was not since men were upon the earth, so mighty an earthquake, and so great. "And the great city was divided into three parts, and the cities of the nations fell:

Within 10 days of the economic collapse we have the first earthquake affecting Utah which takes place early in the morning, about 4 or 5 am. When I first saw it I didn't think it was very hard because I saw there wasn't much damage done to my home in Utah County, but it lasts a long time. People will think this is the big one. I saw that this earthquake was much stronger somewhere else like on the west coast area of California but it also affects Nevada. There is a lot of damage done and there is some loss of life though there are a lot of people who survive.

The second earthquake affecting Utah takes place about 15 days after the first and also takes place in the early morning around 4 or 5 am. This earthquake is like the world has

never seen and affects a much larger area than just Utah. It's right off the Richter Scale. I saw the dams in the mountains in the Wasatch Front area breaking. I don't know if all of them break or if some of them break in the third earthquake, but I know that all of the dams eventually break. I do know that Jordanelle Dam breaks first and comes down and breaks Deercreek Dam. I saw a wall of water 80 feet high come roaring down Provo Canyon with such force it hits houses and they literally explode

I saw cracks opening up in the earth running from east to west and I thought that was really strange because I thought the faults ran north to south. These cracks open at the Point of the Mountain where the freeway goes over the mountain from Utah County to Salt Lake County, Beck Street in Salt Lake City and at Willard Bay. I saw these huge cracks 600 to 1000 feet deep and 500 to 600 feet across with homes, people and everything falling down into these cracks. They run from the mountain clear out to the valley floors. These cracks separate Utah County from Salt Lake County, Salt Lake County from Davis County, and Davis County from Weber County. I think these cracks may open in the 2nd or 3rd earthquakes but I really don't know. I know that later I saw molten lava coming up through these cracks in the earth.

I think that the volcanoes start with the 3rd earthquake because I saw that it was daytime and the 3rd and 4th earthquakes happen in the afternoon. I saw volcanoes right here in this Valley and saw hot lava falling on people. I was running from house to house trying to warn them to get out because the volcano was here and ready to blow but they ignored me and were laughing.

There's a space between the 3rd and 4th earthquakes in Utah and I don't know how long of a space there is.

The 3rd earthquake which takes place in the spring, maybe April, triggers all of these natural calamities that will begin happening all around the earth and the whole earth will be in turmoil; tidal waves 500 feet high, horrendous tornadoes and winds, earthquakes and volcanoes all going on. I was told that only those that are ordained to do so would live through this. So it will not only be the wicked that will be taken off the earth, there will be righteous among them too. If you survive it you will know without a shadow of a doubt that the only way you were able to walk through it is through the power of God.

Before the 3rd earthquake we will be led out by beings of light to cities of refuge or cities of light where we will remain while the rest of the calamities go out to the rest of the world. If you do not make it to one of these cities you will not survive. **I SAW THAT ALL THOSE THAT ARE WILLING TO BELIEVE IN JESUS CHRIST AND HAVE FAITH IN HIM AND WILL ACCEPT HIM WILL BE LED OUT.** The 3rd earthquake is the removal of the wicked that remain who refuse to accept Jesus Christ. I asked how long we would have to prepare before we are led out. I was told to read Mosiah 24 in the Book of Mormon. I started reading and it was talking about when Alma was under the persecution of the Lamanites. They prayed day and night for relief. The Lord told them to prepare because they were going to be led out the next morning. The Lord shut the eyes of the Lamanites so that they couldn't see and then led them out. That's how I was told it would be. We would have overnight to prepare. I was also told that they would no longer speak about when the children of Israel were led out of Egypt but that the

miracles will be so great in these days ahead that they would talk about when

we were led out to the New Jerusalem. Whatever we pass through will be a very short period of time and it will be well worth the reward.

A huge earthquake occurred in the middle of the United States. It was tremendous and seemed to split the United States in half about where the Mississippi River is. The crack in the earth that resulted was huge, miles wide, and as it opened up the earth seemed to swallow everything. Water flowed in from the Gulf of Mexico all the way up to the Great Lakes. The Great Lakes did not exist any longer, however, as they became part of a large inland sea.

Then I saw another series of tremendous earthquakes all over the world. But they were not many, separate earthquakes, rather it was all part of one gigantic earthquake that shook

the entire earth. Because of this earthquake waters overflowed their boundaries onto land all over the world. There were again huge walls of water along all of the coastal regions. This earthquake and the walls of water made the earlier ones seem small by comparison. I am not sure if the earthquake that split the United States in two was a part of this worldwide quake or not.

Through the Window of Life

“Well, there was an earthquake first. Cracked them both right down the middle. All the water built up behind them did the rest. There’s massive flooding.” James was nearly breathless with the news. “Other dams are on the verge of giving way. There’s just been too much rain.”

There is No Death

Now the smoke became very heavy, dark and thick. Just as things appeared to be as bad as they could get, the earth began to quake. This occurred during a winter, seemingly the winter that followed the very long one I had seen earlier. The chaos had existed for almost a full year by this time. The earthquakes began in the west, around Idaho and Wyoming, and then quickly spread in every direction. I saw a huge earthquake hit Utah, and then California. There were earthquakes all over California, but they were especially devastating in the Los Angeles and San Francisco areas. San Francisco appeared to turn upside down.

I understood, without asking, that the great worldwide earthquake and the mighty wind were somehow caused by a huge planet-like object, that had come very close to the earth and had disrupted everything. It was also made clear to me that it was very near the "end" when this happened
